

# Steeple

## INFORMATION ON IAAF REGULATION

Regulation requires 4 steeple-chase hurdles and 1 water jump hurdle in one lap, that is to say:

- 1 steeple chase hurdle of 5m00
- 3 steeple chase hurdles of 3m96
- 1 water jump hurdle de 3m66

CAUTION: Fences height should be adjustable from 0m762 for women, to 0m914 for men.

IMPORTANT : The IAAF regulation imposes that the colour of the beam should be different from the colour of the track.

• Wooden beam that will keep its shape of a 12,7 x 12,7 cm section. Yellow lacquered with blue strips.

• GALVANISED steel frame that can be dismantled for storage.

• Adjustment of heights from 0m762 to 0m914 by GALVANISED tube automatically locked by springs.

• Wheels for moving integrated
