SENIOR ALUMINIUM FOOTBALL GOAL EURO

NEW

F8040

NEW and VERY NICE model 2016 version made for EURO. Used for the 2017 CAN in GABON.

In place in many LIGUE 1 stadiums. Inspired from the previous version already used for the 10 stadiums in SOUTH AFRICA in 2010.

ALUMINIUM profile ovoid section of 120 x 100mm. WHITE powdered after pickling. MONOBLOCK crossbar assembled to the vertical uprights by welded metallic brackets placed inside the profile, allowing a perfect conformity to FIFA and UEFA regulations.

White rubber seals are placed in the angles to control the cutting thickness.

New double net hooks, fixed every 20 cm. Very resistant, allowing a very fast assembling/dismounting and a good position of the net.

Delivered with ground sockets TO SEAL and tops.

The pair.
