

Javelin

MARTY SPORTS is the exclusive distributor of **NORDIC SPORTS** in France.

NORDIC javelins' quality is no longer to proof, they are requested by the world best throwers. These are javelins of many world records, nearly 90% of world finalist use **NORDIC'S**. **NORDIC** has been manufacturing **SANDWIK** javelins (previous **NORDIC JAVELIN**) since 1972. Javelins are manufactured in Northern Sweden; this warehouse is only for this item. They are all made of specific steel with thermic processing after different manufacturing stages. The well-known reputation of sturdiness and quality of **NORDIC** javelins comes from the steel use but also from the special care of each manufacturing stage.

NEW : We indicate you the flexion index of each javelin. The lower the index, the less the javelin is flexible.

NORDIC COMET JAVELIN

School and clubs javelins.
UP to IAAF STANDARD but NOT CERTIFIED. Strengthened aluminium, with steel tip. Very nice manufacturing.
Unit.
